

SPARTAN
SINCE 1943

Ultimate Warrior

Ultimate Warrior/ Hi-Flow Ultimate Warrior

The most powerful force in the field. Spartan unleashes two of the industry's toughest jetters. The Ultimate Warrior brings you all the features of Spartan's revolutionary Warrior — a fully enclosed, sound-dampening fiberglass body, 4,000 PSI @ 18 GPM, and a patented 180° pivoting hose reel with optional six-function remote control — but in a dual axle configuration with a towable capacity of 600 gallons. And that's not all. Its alter ego, the Hi-Flow Ultimate Warrior offers 3,000 PSI @ 35 GPM, perfect for small municipalities and use in larger sewers, culverts and drains. Finally, the unit's clean finish allows for customization with your company's logo and signature colors, allowing you to easily transform the unit into your company's mobile billboard.

Soundproofed engine cover pivots vertically on gas struts for easy access to engine and pump maintenance.

Rear of the jetter is fully enclosed and lockable for worry-free transport and storage.

All jetter controls move with the patented 180° pivoting hose reel when the rear hood is raised.

Marine-grade gauges and Spartan's exclusive Dial-A-Pressure PSI settings simplify operation.

SPECS

ULTIMATE WARRIOR

- Pipe sizes: 4" – 24" diameter
- Pressure: 4,000 PSI
- Flow: 18 GPM
- Standard hoses include: 500' of 1/2" high-pressure cleaning hose; 100' of 5/8" rubber supply hose; 75' of 1/4" trap-cleaning hose; 15' of color-coded leader hose
- Weight: 4,920 lbs. empty; 9,900 lbs. full
- Dimensions: 191" L x 73" W x 74" H
- Engine: 87-HP, electronically controlled turbo diesel
- Nozzles included: one penetrator and one closed stainless steel nozzle

HI-FLOW ULTIMATE WARRIOR

- Pipe sizes: 4" – 36" diameter
- Pressure: 3,000 PSI
- Flow: 35 GPM
- Standard hoses include: 500' of 5/8" high-pressure cleaning hose; 100' of 5/8" rubber supply hose; 75' of 1/4" trap-cleaning hose; 15' of color-coded leader hose
- Weight: 4,955 lbs. empty; 9,935 lbs. full
- Dimensions: 191" L x 73" W x 74" H
- Engine: 87-HP, electronically controlled turbo diesel
- Nozzles included: one penetrator and one closed stainless steel nozzle

FEATURES

- Triplex ceramic plunger pump delivers 4,000 PSI @ 18 GPM (Ultimate Warrior) or 3,000 PSI @ 35 GPM (Hi-Flow Ultimate Warrior)
- Patented 180° pivoting hose reel and controls, with variable speed hydraulic rewind
- Optional six-function wireless remote available for easy one-man operation
- Electrically controlled pump pulsation for maximum cleaning distance
- Fully enclosed (and lockable) for the quietest large trailer jetter in the world
- Tier III diesel engine meets all US emission standards through 2012
- Dial-A-Pressure engine setting
- Lift-up rear door provides operator sun and weather protection
- 75' of 1/4" trap-cleaning hose
- Wash-down gun in lockable holster
- 600-gallon water tank with integrated baffles allows unit to be towed while full of water
- Torsion dual-axle suspension with electric brakes
- Full system winterization with antifreeze recirculation
- Top-mounted amber strobe light
- Pump engagement clutch enables engine to warm up without pump engaged for longer pump life
- Shut-down protection for low water, low engine oil and high engine temperature
- Hose rewind guide pivots with reel
- Manhole hose protection
- Marine-grade gauges and battery enclosure
- Can be filled from hydrants or hose bibs
- Lockable, sealed toolbox for holding jetter accessories
- Optional 4,000 PSI Performance Nozzle Kit features 5 nozzles including a genuine Warthog® nozzle for cutting roots

All Spartan trailers are certified fully compliant by the National Association of Trailer Manufacturers.
